#20 McDONALD PRIVATE CEMETERY

All twenty-two graves in this cemetery were located below the flood level. they were identified and all were relocated, as requested by the relatives. Reinterments were all made in the Ogreena Baptist Church Cemetery No. R-8. This Cemetery is about 90 years old and no one has been buried here for 90 - 100 years. There are some old soldiers graves. Most of the information came from Mrs. Belva McDonald who is one of the nearest relatives and the names are the only ones that are available.
